FRONTEND DEVELOPER

Frontend Developer with 8+ Months of experience in web development, specializing in HTML, CSS, JavaScript, and PHP. Proficient in frameworks like React.js and Express.js, with a passion for creating user-friendly and efficient web applications. Strong team player, quick learner, and always eager to keep up with the latest trends in technology.

TECHNICAL SKILLS

Languages	:	JavaScript, PHP, HTML, CSS
Frameworks	:	React.js, Express.js
Databases	:	MongoDB, MySQL
Tools	:	Visual Studio Code, Git, Gitlab
Other Skills:	:	REST APIs, State Management (Redux, Context API), Responsive Design, Third-party Service Integration (Email, SMS Gateways)

EXPERIENCE

Web Developer   May 2024 – Present
Neuarx   *Remote – Satara, Maharashtra, India*

- Lead developer on a web-based system for educational institutions, managing the full development lifecycle from concept to deployment.
- Technologies used: React.js, Node.js, Express.js, MongoDB, REST APIs.
- Developed and maintained reusable components to ensure optimal performance and scalability, improving the system's user interface by 30%
- Integrated third-party services such as email and SMS gateways to enhance system functionality, supporting real-time notifications for students and faculty.
- Collaborated with cross-functional teams to design features like attendance tracking, grade management, and scheduling, streamlining administrative workflows.
- Optimized database queries, reducing response time by 20% and improving data management for large volumes of student information.

Web Developer Intern   Aug 2021 – Oct 2021
Software Development Cell (KBPCOES)   *Satara, Maharashtra, India*

- Worked in a collaborative environment to design and implement new features for an internal software system.
- Troubleshot and resolved backend issues, reducing bug occurrence rate by 15%
- Assisted in optimizing legacy code, which led to a 25% reduction in application load time.
- Ensured customer satisfaction by resolving post-launch issues and providing client support.

EDUCATION

Shivaji University, Kolhapur   Satara, Maharashtra, India
Bachelor of Computer Applications (BCA)   *June 2019 – July 2022*
CGPA: 8.37/10

- Relevant coursework: Web Development, Database Management Systems, Object-Oriented Programming, Data Structures.
- Developed a final-year project on a college management system using the MERN stack, managing student data and performance analytics.

PROJECTS

Educational Institution Management System

- **Description:** A web-based platform designed for schools and colleges to manage attendance, grades, and scheduling.
- **Technologies:** React.js, Node.js, MongoDB, REST APIs.
- **Key Contributions:** Developed the frontend using React and optimized state management with Redux. Designed MongoDB schemas for efficient data storage and retrieval, supporting large-scale institutions.

Personal Portfolio Website

- **Description:** Created a personal portfolio website to showcase my skills, projects, and work experience.
- **Technologies:** HTML, CSS, JavaScript, React.js.
- **Key Contributions:**Responsive design, dynamic content loading, and integration with GitHub for project repositories.

CERTIFICATIONS

- Core Java Certification
- MERN Stack Development

ADDITIONAL INFORMATION

- Languages: English (Professional),Marathi ((Native), Hindi.
- Hobbies: Contributing to open-source projects on GitHub, participating in coding challenges on platforms like HackerRank.
